

WEBINARS

Workers over 100 kg

Access level: **000 (Novice)**

Reference : **PND 006**

Adding together the weight of the worker and their equipment, the 100 kg limit is easily exceeded. The closer we get to 140 kg, the more stress will be applied to the entire chain (of the system).

Goal(s) of the training

- Know Petzl's recommendations on weight limits
- Eliminate in-person training

Program

What precautions should be taken to:

- Prevent falls
- Limit the fall distance
- Reduce the impact force of the fall

- **Duration:** 1 hour.
- **Documents provided:**
 - PDF presentation.
- **Target group:**
 - professionals (independent or employees),
 - association leaders: trainers of people using PPE,
 - technical sales reps,
 - product testing organizers,
 - dealers,
 - PTI - PTP.
- **Prerequisites:** none.
- **Access level:** **000**
Novice: I don't know enough about the equipment to use/explain it independently.
